**SUBJECT:** PERSONAL INJURY INQUIRY LETTER

As discussed recently at the All Plan Quarterly Meeting in January 2005, the Department of Health Services (Department) intends to increase compliance with Personal Injury (PI) reporting by sending the PI inquiry letter to the Medi-Cal Managed Care population. In order for the Department to achieve its recovery goals, cooperation and coordination will be necessary with our managed care plan partners.

The PI Unit is responsible for the identification and recovery of Medi-Cal funds that were expended on behalf of Medi-Cal beneficiaries involved in personal injury actions. The PI Unit asserts liens against any settlement, judgment or award received by a beneficiary for the cost of injury related services paid by Medi-Cal. Attorneys, insurance companies and beneficiaries provide the primary sources of case referrals for the PI Unit. Fee for Service (FFS) beneficiaries and members of the older County Organized Health Systems (COHS) Plans receive a PI inquiry letter that is generated automatically whenever a claim is paid that includes trauma codes. This program generates the PI inquiry letter to San Mateo and Santa Barbara COHS plan members based on trauma codes reported from monthly encounter data.

A PI case is established when the PI Unit receives a referral on a Medi-Cal beneficiary and eligibility is confirmed. Medi-Cal payment history is then ordered for the period of time from the date of injury to the present. The PI Unit staff reviews the beneficiary's payment data, develops an itemization of payments containing injury-related services, and asserts a Medi-Cal lien against any settlement, judgment, or award for the itemized claim amount. These settlements, judgments, or awards facilitate collection for the Recovery Section of nearly \$40 million per year. For managed care beneficiaries, the PI Unit must order the payment history from the Medi-Cal managed care plans. Your timely response and cooperation in providing service information for your members is greatly appreciated. Per your contract, it is the responsibility of the managed care plans

April 11, 2005

to provide the requested information within 30 days of the request. It is anticipated that the volume of such requests will increase with the mail out of the PI inquiry letter. In an effort to increase PI case referrals, programming has been developed to initiate the PI inquiry letter to the larger managed care population, including the Two-Plan Model and Geographic Managed Care (GMC) population using the same methodology that currently exists for the FFS population and COHS members. The PI inquiry letter will be automatically generated to managed care plan members based on encounter data that identifies trauma codes. The Third Party Liability Branch budget change proposal for 2005/2006 includes a significant increase in recoveries based upon the anticipated increase of PI case referrals from the managed care population.

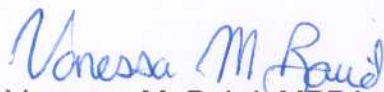

Enclosed is a PI referral letter for your review and comment. The letters sent to beneficiaries include a self-addressed stamped envelope. The Department anticipates there will be minimal contact to the plans. The proposed timeline to initiate the PI letter to the remaining COHS population is April 2005, and July 2005, for the Two-Plan model and GMC members.

Please send any questions or comments within 30 days directly to:
